

**TO WHOM IT MAY CONCERN**

**Letter regarding Conformity – RFD868ux-EU / RFD868x-EU modem**

I, Seppo Saario, Director of RFDesign Pty Ltd, here confirm the following:

RFDesign is the manufacturer of the RFD868ux-EU / RFD68x-EU telemetry module which operates between Frequency Range: 869 - 870 MHz.

The modem is designed for system integrators who will integrate the modem into their own projects and product prototypes. The user is responsible for compliance with local regulations for radio transmitters.

The RFD868ux-EU / RFD868x-EU is designed in Australia, assembled in Taiwan, with final inspection and shipment from Australia.

The RFD868ux-EU /RFD868x-EU is compliant with the following standards:

- EN300 220 V3.1.1
- EN301 489-3 V2.1.1
- IEC 62368-1:2014

HS Code: 8517.62.90

ECCN: EAR99

Please contact us with any further questions.

Kind regards,

A handwritten signature in black ink, appearing to read 'Seppo'.
